Note: C = Carried over from the last Intended Use Plan

^{*} Applicant has a max bonding capacity that the loan amount cannot exceed.

Allocation of Available Funds

Missouri law requires that twenty percent and fifteen percent of available funds, respectively, shall be made available to water systems serving populations of 3,300 or less (designated as very small communities) and water systems serving populations of 3,301 to 9,999 (designated as small communities). The remaining sixty five percent (designated for general community) is not restricted by population served.

- The fundable project lists may change significantly between the draft Intended Use Plan placed on public notice and the final version approved by the Safe Drinking Water Commission.
- The inclusion of a project on the fundable list is not a guarantee of funding. Other factors, such as timely progress, compliance with program requirements, and funding availability, may impact project funding.

Notes:

Final eligible costs will be determined as documents are submitted and the project progresses toward loan closing.

Financing schedule shown is for planning purposes only. Final scheduling will be determined as documents are submitted and approvals obtained. Carry over projects from the FFY 2024 list must reapply to be considered for the FFY 2025 list.

^{*} Applicant has a max bonding capacity that the loan amount cannot exceed.

^{**} Application not ready to proceed by March 1, 2023.
